A family business for over 66 years, Scott Plastics Ltd. has grown from a local BC company to operating and shipping worldwide. The company is now situated near the YYJ Victoria International Airport in an 85,000 sq.ft. manufacturing plant built in 2000, and has recently expanded. The Scotty trademark has become recognized to mean product excellence. The total commitment to quality, fair pricing and unmatched service means our customers everywhere can expect reliability and satisfaction from every product that carries the Scotty name. This commitment has taken us to where we are today and will hopefully serve us well for many years to come. All products are backed by years of manufacturing experience and the highest quality customer service. Excellent vendor support and a superior product have made Scotty a leader in the fishing industry.

SCOTTY: THE WAY TO FISH!

In 1952, Blayney Scott and his wife Almeda Scott started a small company in Victoria British Columbia that pioneered the use of plastics in the manufacturing of salmon fishing, lures and other marine products. From humble beginnings, Scott Plastics Ltd. evolved to produce thousands of products under the Scotty trademark which are sold to the fishing, marine, outdoor and firefighting industries worldwide.
FIGHT THE FISH, NOT THE FISHING GEAR

Downriggers were created for one principal reason: to allow anglers to troll their lures at a specific depth. Years of testing and practical use have shown that a moving bait and to get results. Downriggers were very simple back in sport fishing. The earliest idea of attaching a rod to the fishing line from the rod is clipped into the release. The Downrigger, by means of a release clip, was introduced. A release clip is attached to the wire and then the fishing line from the rod is clipped into the release. The Downrigger weight is then lowered to precisely the depth required. When a fish hits, the line is released from the Downrigger wire, leaving the heavy weight on the Downrigger. The angler is then free to fight the fish on the rod and reel alone, without the added drag of heavy lines and trolling weights used in the past. Scotty introduced its first Downrigger over 40 years ago and now produces the most complete range of Downriggers and accessories in the world.

Choosing your Downrigger

ELECTRIC DOWNRIGGER SPECS

All Electric Models have 12 v Manico™ corrosion resistant plug + socket, locking tilt up mount, large surface automatic brake, spray protected positive-drive depth counter, Kevlar™ belt driven and an auto stop with jog button feature. EACH SCOTTY DOWNRIGGER IS FACTORY ASSEMBLED AND LOAD TESTED.

1. Clip your fishing line to the Downrigger line using a Scotty Power Grip line release.
2. Loosen the drag on your fishing reel and carefully let the Downrigger line out to a specific depth.
3. When a fish strikes it pulls your fishing line out of the release and you are free to fight the fish on the rod and reel.
High Performance

Scotty High Performance Electric Downriggers have reached the highest performance and reliability standards yet, while remaining competitively priced. Thousands of anglers now enjoy the superior speed, power and years of reliability that only Scotty offers. Scotty’s custom designed marine components and final quality control tests produce a Downrigger that is unmatched in the industry.

FEATURES INCLUDED WITH ALL HIGH PERFORMANCE MODELS

- Line Release: Power Grip Plus 18” (1170)
- Rod Holder: Rocket Launcher (469)
- Mounts: Tilt-up Mounting Bracket (1023)
  Swivel Mount (1026)
  Right Angle Marinco® Receptacle Mount (2128)
- Auto Stop: (121)
- Auto Stop Beads
- Weight Storage: Storage Hook (1148)
- Power Source: Marinco® 12V Plug & Receptacle (2125)
  Power cord length, 40”
- Downrigger Cable/Line:
  300 ft. of 180 lb. test stainless steel cable. 300 ft. of 250 lb. test braided line (2106 model)
- Counter: Digital Illuminated LCD (2132)
- Factory & Field Tested
- Fully Assembled
- Warranty: Limited Lifetime

2106 HIGH PERFORMANCE
The Downrigger of choice for serious fishermen. Unmatched in power, performance and reliability. Equipped with 300 ft. of 180 lb. test stainless steel cable. 36”-60” 1 ¼” telescopic stainless steel boom.

2106B HIGH PERFORMANCE
Power and performance packaged with our strongest braided Downrigger line. Equipped with 300 ft. of 250 lb. test braided line. 36”-60” 1 ¼” telescopic stainless steel boom.

2116 HIGH PERFORMANCE PROPACK
The number one choice in performance Downriggers for the charter captain. Equipped with 300 ft. of 180 lb. test stainless steel cable and our stainless steel rocket launcher dual rod holders. 36”-60” 1 ¼” telescopic stainless steel boom.
Scotty Depthpower Electric Downriggers have the highest performance and reliability standards ever, while remaining competitively priced. Thousands of fishermen now enjoy the superior speed, power and years of reliability that only Scotty offers. From custom designed marine motors to the final quality control tests, Scotty performance is unmatched in the industry.

  - **DOWNRIGGER WEIGHT RETRIEVER**
  - A safety precaution for the Downrigger fisherman. Brings your weight in for rigging lines and releases without having to lean out over the gunnel.
Fishing line is gripped between the soft pads and variable release tension is attained by moving the line in or out of the jaws. The "tension adjuster" doubles the holding power if needed. Streamlined design won't snag on weeds or foul lines.

1. Attach to your Downrigger Cable or Cannonball.
2. Attach your fishing line to the Power Grip release by squeezing the jaws apart and placing your fishing line between the pads. The release tension is lighter at the outer tip, and is heavier the further into the jaws you place the line.
3. The tension adjuster can be moved forward to decrease or back to increase the release tension.

**POWER GRIP PLUS**

Holds a bait caster reel securely in the cushioned cradle. A slot in the front of the rod holder allows for secure holding of a spinning reel. This rod holder is designed with a side mounted flange which leaves the bottom open, this allows for the rod holder to accommodate trigger grips. Rods can be secured with a soft latching strap which snaps over the top for baitcaster or under the bottom for spinning reels.

279 No mount.

280 241 Side Deck Mount.

281 244 Flush Deck Mount.

282 438 Gear Head and 440-4 Track.

284 243 1½” Square Rail Mount.

289 449 Clamp and 241 Mounts. Maximum clamp opening 2”.

388 429 Gear Head Mount Extender and 241 Mount.

389 429 Gear Head Mount Extender and 241 Mount.
Innovative compact design allows for hands free trolling with a Fly Rod. Your rod can be secured in the rod holder with the soft latching strap which snaps over the top. Works well with “short butt” fly rods. All post mount Scotty Rod Holders are fully adjustable.

- **260** No mount.
- **264** 244 Flush Deck Mount.
- **265** 241 Side Deck Mount.
- **266** and 267 241 and 266 Float Tube Mounts.
### Transducer Mounts

Designed for kayaks and small boats. Made from high strength composite materials. Adjustable arms allow for multiple depths and angles. Collapses easily for storage. 415 slip disks for micro adjustments.

- **140 TRANSUCER ARM**
  - 412 Post and 241 Side Deck Mount.

- **141 TRANSUCER ARM**
  - 418 Gear Head and 440-4" Low Profile Track.

### ELECTRONIC MOUNTS

- **368 UNIVERSAL SOUNDER FISHFINDER MOUNT**
  - Mount only.

- **268 FLOAT TUBE FISHFINDER MOUNT**
  - Adapt a fishfinder to your float tube or pontoon boat. Includes transducer bracket and 6" strap.

- **270 SWIVEL FISHFINDER MOUNT**
  - 244 Flush Deck Mount.

- **272 SWIVEL FISHFINDER MOUNT**
  - Mount only.

- **269 SWIVEL FISHFINDER MOUNT**
  - 241 Side Deck Mount.

- **135 CAMERA MOUNT**
  - This mount is fully twistable, turnable, rotatable and best of all, instantly portable. Locks down a sport or standard camera without needing a special adapter.

- **268 FLOAT TUBE FISHFINDER MOUNT**
  - Adapt a fishfinder to your float tube or pontoon boat. Includes transducer bracket and 6" strap.

- **270 SWIVEL FISHFINDER MOUNT**
  - 244 Flush Deck Mount.

- **272 SWIVEL FISHFINDER MOUNT**
  - Mount only.

- **269 SWIVEL FISHFINDER MOUNT**
  - 241 Side Deck Mount.

- **135 CAMERA MOUNT**
  - This mount is fully twistable, turnable, rotatable and best of all, instantly portable. Locks down a sport or standard camera without needing a special adapter.

- **268 FLOAT TUBE FISHFINDER MOUNT**
  - Adapt a fishfinder to your float tube or pontoon boat. Includes transducer bracket and 6" strap.

- **270 SWIVEL FISHFINDER MOUNT**
  - 244 Flush Deck Mount.

- **272 SWIVEL FISHFINDER MOUNT**
  - Mount only.

- **269 SWIVEL FISHFINDER MOUNT**
  - 241 Side Deck Mount.

- **135 CAMERA MOUNT**
  - This mount is fully twistable, turnable, rotatable and best of all, instantly portable. Locks down a sport or standard camera without needing a special adapter.
The ball mounting system design enables a smooth, full range of motion. The corrosion proof construction provides a long service life in both fresh and salt water applications. The Gear Head’s effortless drop and lock system allows for secure and re-position post mount accessories with just a twist. The 163 top plate has been designed to accept large fish finders.

**Mounts**

**DOWNRIGGER MOUNTS**

**1027 RAIL MOUNT**
Fits up to 1 ½" round rails, including oval-shaped wooden rails. Transfers the downward pressure to the boat gunnel. Fits all Scotty Downriggers (except Laketrollers) and can be used with 1026 Swivel Mount.

Dimensions: 6 ¼" x 7 ¼"

**1036 MOUNTING PLATE**
Extra mounting plate for 1026 Swivel Mount and 2606/2612 Pedestal Risers.
Dimensions: 5 ⅞" x 5 ½"x 3 ⅞"

**1037 MOUNTING PLATE**
Extra mounting plate for 1025 Right Angle Side Gunnel Mount.
Dimensions: 2” x 4” (side plate)

**2027 STANCHION MOUNT**
The Scotty Stanchion Mount enables you to quickly mount a Downrigger to your boat's railing stanchion for extra stability. Fits all Scotty Downriggers (except Laketrollers) and can be used with 1026 Swivel Mount.

Dimensions: 6 ⅜" x 6 ⅜"

**1028/1029 GIMBAL MOUNT - 9”**
GIMBAL MOUNT - 12”
Made from welded stainless steel for strength and durability. For use in factory mounted gimbal rod holders only. Fits all Scotty Downriggers (except Laketrollers) and can be used with 1026 Swivel Mount.

Dimensions: 1028: 6 ⅛” x 7 ¾” (top plate)
1029: 6 ⅛” x 7 ¾” (top plate)
9” x 1 ¼” dia. (gimbal)
12” x 1 ¼” dia. (gimbal)

**2606/2612 PEDESTAL RISER - 6”**
PEDESTAL RISER - 12”
Made from 2” stainless steel tubing for the ultimate in strength and durability. Designed to be used with 1026 Swivel Mount, 1023 tilt-up Downrigger mount and 1010 compact Downrigger mount.

Plate Dimensions: 5 ¼” x 5 ¼”
Bolting Dimensions: 3 ⅞” x 4 ⅞”

**1021 PORTABLE CLAMP-ON BRACKET**
Portable mounting option. Great for aluminum boats. Double stainless steel bolts and black anodized aluminum. 2” clamp opening. To be used with 1010 mounting bracket (sold separately)
Dimensions: 5 ⅞” x 4 ½” x 3 ¼”

**1015 SIDE MOUNT BRACKET**
For boats with narrow or uneven gunnels. Fits 1050 Downriggers. To be used with 1010 mounting bracket (sold separately)
Dimensions: 5 ¼” x 2 5/16”
Bolting Dimensions: 4 ⅞” x 1 ⅞”

**1010 QUICK-SLIDE DECK MOUNTING BRACKET**
Works with the 1025 through 1029 optional mounts.
Dimensions: 4 ⅞” x 5 ¼”
Bolting Dimensions: 2 ⅞” x 4 ¼”

**247 DUAL ROD HOLDER**
Designed for use with the 1026 Swivel Mount.

**347 DUAL EXTENDED ROD MASTER II ROD HOLDER**
Designed for use with the 1026 Swivel Mount.

**447 DUAL ROCKET LAUNCHER ROD HOLDER**
Designed for use with 1026 Swivel Mount.
**Mounts**

**LOW PROFILE TRACK**

Made from corrosion proof high strength composite materials that will last a lifetime. Top load design for quick and easy use. Use the 438 Gear Head Track Adaptor to mount all of your favourite rod holders and accessories.

**440-1 1" LOW PROFILE TRACK**

- **Dimensions:** 7” L x 1 1/4” W x 3/8” H
- **Bolting Dimensions:** 1 3/4” x 1 1/8”

**440-4 4" LOW PROFILE TRACK**

- **Dimensions:** 10 1/2” L x 1 1/4” W x 3/8” H
- **Bolting Dimensions:** 1 3/4” x 1 1/8”

**440-8 8" LOW PROFILE TRACK**

- **Dimensions:** 13 1/2” L x 1 1/4” W x 3/8” H
- **Bolting Dimensions:** 1 3/4” x 1 1/8”

---

**Gear Head**

Quick and easy, drop and lock system. Allows you to secure and reposition your rod holder or accessory with just a twist. Fits all Scotty post mount rod holders and accessories.

**439 GEAR HEAD TRACK ADAPTER**

Use the Track Adaptor with the 440 Low Profile Track for quick and easy install and removal of your favourite Scotty post mount product.

**426 SIDE SLIDE TRACK ADAPTER**

Our unique Track Adaptor allows you to securely fasten your favourite post mount product to a side mounted track.

**428 GEAR HEAD MOUNT**

Use in conjunction with any of our height extenders to bring your rod or accessory closer to you.

ACR detachable, fully sealed LED C-Light™, bright 20 Lumen White LED for location assistance during emergencies. Easy twist ON/OFF activation that is waterproof tested. Impact resistant construction and is USCG/SOLAS approved. C-Light™ is easily removed and can be attached to life jackets, backpacks or hang from a pocket. C-Light™ requires two “AA” 1.5V batteries (batteries not included) C-Light™ has an extensive and continuous operating life for over 30 hours.

**835 SEA-LIGHT WITH SUCTION CUP MOUNT**
A non-permanent safety addition that is perfectly portable for kayaks and small watercraft. Designed to meet the demands of the sea but also ideal for within a vehicle, for camping and whenever a reliable high efficient light is needed. Includes versatile suction cup mount for use in both salt and fresh water.

**838 SEA-LIGHT WITH POLE & BALL MOUNT**
The Scotty Ball System joint design enables a smooth and complete full range of motion for the Sea-Light. The corrosion proof construction of this system provides a long service life in both fresh and salt water applications as it is designed with stainless steel fasteners and a stainless pole. Base Mount Dimensions: 2 ¼” x 2 ¼”. Overall Height: Stands 41” tall Sea-Light Pole Diameter: ½”

Purpose
The critical need to enhance our salmon and fish stocks is well documented. Natural spawning has declined dramatically over the past few decades for many reasons. Many of the spawning areas no longer exist. The areas that do still exist are only partially effective and many of our original salmon stocks are now extinct. The need for enhancement programs by volunteers and organizations has never been greater. The availability of the Jordan-Scotty Fish Egg Incubator unit can be of great help for our precious salmon and other fish stocks and their eventual recovery.

The development of the Jordan-Scotty Fish Egg incubator is the direct result of the desire by Scotty to make a contribution to the enhancement of the salmon, trout and walleye stocks in the streams and creeks around the world. Over the years, due to human interference, these habitats have lost their natural spawning and rearing capabilities. At Scotty, we hope that our efforts will assist bringing the fish back. With your help, future generations will be able to watch fish return to streams and rivers in historic quantities.

History and Design
The original incubator prototype was designed and tested by Mr. Fred Jordan, a Salmonid Technician for many years. He conceived the idea for stream enhancement during the 1980’s. The success of his early experiments with this unit led to research, development and further design of the incubator by Scott Plastics Ltd. Sidney, BC. This unit is extremely efficient and very compact. It is simple to use, durable, cost effective and practical, making it an excellent addition to enhancement projects.

Fungus infection is virtually eliminated and eggs are protected from predators and silt suffocation. Testing and usage indicates that survival rates from egg to fry is often better than 65-95% as compared to natural spawning survival rates of between 5-20%.

In nature, high egg loss rates can easily be caused by poor fertilization when deposited eggs not being successfully buried, fungus from dead eggs spreading to healthy eggs, attrition by predators, and silt suffocation. The Jordan-Scotty Fish Incubator addresses these issues and others. Egg quality can be checked during the loading process and all eggs are fertilized before loading. Eggs are quarantined from each other during development, limiting the spread of disease and fungal infection. Eggs are safe from predators and alevin are safely contained until their yolk sac have been absorbed, increasing survival rates.

How It Works
A pair of loaded plates are bolted together to create a “unit” designed to hold 200 single eggs or more, depending on species and size of egg. The plates are held together by nylon tie bolts and stainless steel nuts and can be grouped in up to 5 unit sets. Escape holes allow the hatched fry to swim free once they have developed in their protected environment. The assembled egg units are anchored in streams by securing them to re-bar stakes or some other permanent holders.

Incubator plates are available with three sizes of escape hole, use to be determined by using our incubator chart.

How to Obtain Jordan-Scotty Fish Egg Incubators

These Egg incubator units are available at a nominal price to cover minimum raw materials and labour costs. Incubators can be purchased from:

Scott Plastics Ltd. / Scotty Manufacturing
1-800-214-0141
incubator@scotty.com

For use by everyone who is interested in enhancing salmon and other fish runs in any stream, river or lake. Perfect for streamkeeper groups, research applications and education projects.
